Personal Statement

A competent and committed Web Design and Development graduate looking for a rewarding career in the Information Technology sector. Exemplary track record of successfully developing projects from the concept design to testing and handover. Currently seeking a suitable graduate web developer position within a progressive environment where I can enhance and utilize design skills.

Highlighted Software Applications

Ajira Enterprise - Scrum Master, Full Stack Software Engineer

2021

URL: <https://kigensky.github.io/ajira-frontend/login>

This is a Human resource management system (HRM) for public and private companies

- Architected and implemented front-end applications for adding and managing employees, their salaries and leave days.
- Implemented services with RESTFUL APIs and JWT authentication

Kigen Pizza - Front-end Developer

2020-2021

URL: <https://kigensky.github.io/kigen-pizza/>

Kigen Pizza is a front-end website application where one orders pizza with the size they want and add a topping, later they can add their location and they will be given the final list bill.

- Implemented the billing functionality of the system
 - Designed the user interface using Javascript and jQuery UI, focusing on simplicity and structure principles
-

Technical Skills

Strong: SQL, Postgres, Javascript, HTML, CSS, Jwt authentication, promises,HTML5, APIs

Experienced: Django, Flask, Node.js, Angular.js, jQuery, Deployment, Git collaborations

Personal Skills

- Quick learner that adapts quickly, keen to build upon existing skills and gain new ones
- Strong communication skills, works well with teams and a great team leader
- Systems-thinker that enjoys solving challenging problems
- Very Social, easily blends in with people in different social environments

Employment History

Junior developer at Pharmacy and Poisons Board

September 2018 - Present

Achievements and Responsibilities

- Maintenance, Development and design of the board's website
- Working with my co-developers in achieving company's objectives through peer software development

Junior Developer (contracted), Kengen, Kenya

July 2017 - August 2018

Achievements and Responsibilities

- Headed a team of four to redesign and develop the company website and add the career portal and general website maintenance.
- The distinctive web design i came up with was adopted as the best user interface to have ever been design since its inception

Web Developer/Design Nolex Design Center, Eldoret Kenya

January 2015 - June 2017

Achievements and Responsibilities

- Planned and built the first bursary website for Uasin-gishu county
- Helped the company get more clients through the introduction of website development rather than just graphic designs and therefore increased their revenue the year 2015-2016
- Due to increased client base and demand for our quality works engineered the process of moving the company offices to a more spacious and strategic position within the central business district of Eldoret and thus made the company increase its profits.

Academic Qualification

Moringa School

December 2020 - May 2021

Software Engineering Immersive, Web-Applications Specialization
